# COMPLEX NEEDS NURSE

A community based service aimed at reducing unnecessary hospital admissions, & improving the quality of life for those with long term conditions, the vulnerable & elderly.

# What do we offer?

- 
- Support and advice for the elderly, frail, vulnerable, lonely, isolated and those with multiple long term conditions.

- 
- Education to help patients recognise symptoms and help avoid unnecessary hospital admissions.

- 
- Visits to house bound patients who suffer from recurrent infections, such as chest or urinary tract & treating them accordingly.

- 
- Health & Social care assessments

- 
- Referrals to social services, rehab team, falls clinic, occupational therapists, day centres and more.

- 
- Information on local services.

- 
- Memory screening / Support & advice.

- 
- Blood pressure monitoring
- 

- 
- Support for patients with long term conditions such as COPD, heart failure, diabetes or dementia.

- 
- Support for those bereaved in the last 6 months.

- 
- Review of patients post discharge.
